

IP Telephony - Everyone is promising - Datamerge is delivering - click here to find out more

Datamerge have installed many IP Telephony phones systems for our clients, many of which have included remote sites locally, nationally and internationally. IP Telephony is not just for multi-site applications - the benefits also apply to single site businesses.

Our telephone systems are more than just a telephone handset. A properly designed and implemented telephone system will greatly enhance productivity by eliminating unnecessary use of the telephone and other productivity benefits.

Including:

-
Hotdesking – any person can use any telephone as their own.

-
Computer telephony interaction (CTI) – Dial from Outlook and other programs.

-
Handsets can be plugged in anywhere there is a network connection (including remote offices and home).

-
Calls can be directed to the appropriate area without human intervention.

-
Automatic call routing based on time, caller ID, current status, etc.

Other factors distinguish Datamerge – our multi-vendor solutions, expertise combined with proven experience in all aspects of communications, including convergence, mobility and managed services, all make us a preferred communications partner for your business .

If you would like to know why IP Telephony systems are better for business - call us on 1300 662 097 or send in an enquiry)

“ The Zultys system that you recommended is of great benefit to all of our staff, the ease in which the system works and what we are able to achieve is of great benefit to the company in moving forward and growing as a company”

(Andrew Brae , Austal Ships)
